Happy April Fools' Day

Sometimes called **All Fools' Day**, is one of the most light-hearted days of the year.

April Fools' Day is observed throughout the Western World. Practices include sending someone on a "fools' errand," looking for things that don't exist, playing pranks; and trying to get people to believe ridiculous things.

Its origins are uncertain. Some see it as a celebration related to the turn of the seasons, while others believe it stems from the adoption of a new calendar year adopted in 1582. So whatever the origin may be, it is a day to have fun, pull a prank or two and to be silly. Have fun!

TRAINING

On Line Courses – in order to show your course “Completed” and not “In Progress” you must complete the entire course prior to completing the test. This includes, watching the video until the end. If you do not watch the video, it will never show as “Completed” because watching the video is part of the course.

If you are interested in tips and shortcuts for PBB University through Grow, email Mary Schramm to set up a helpful webinar with your team!

Congrats to Alcove for submitting the winning motivational quote which will be presented at the April PBB Live Broadcast. The Alcove team will be receiving a donut or sweet treat delivery. For your chance for a sweet treat, submit your quotes for the May PBB Live to mschramm@pbbell.com.
